Continuation of Substance of Interview including description of the general nature of what was discussed: The Office indicated claims 33 and 47 would be considered allowable if the deposit requirement was satisfied and if claim 47 was amended to be drawn to corn variety 85089 (as recited in numerous locations in the specification, for example, page 13 2nd paragraph). The Office indicated that if corn varieties 27-1 and 85089 are publicly available, then a deposit of said corn varieties is not necessary. If said varieties are publicly available, then the specification should be amended to recite how and from whom, one can obtain said corn varieties. If said corn varieties are not publicly available, then the corn varieties should be deposited as stated in the deposit rejection, set forth in the accompanying office action..
